COMPANY NEWS

We have officially reached 100 patients nationwide!

"I am left stunned and speechless at this accomplishment. I am overwhelmed with feelings of gratitude and appreciation for all of those who have contributed to making a community and company where nurses and patients trust us with their careers, their loved ones care, and their own care. It is a serious and difficult choice when selecting a home health agency.

To all of the patients and nurses who took a chance on us with a promise to treat you better than the rest, to care for you like we would care for our own family, to respect you the way you deserve to be respected, like the rock stars and angels you are, thank you. I hope that we have fulfilled that promise and more. We have proven that you can build a company and home health agency based on great customer service and doing right by people, NOT focusing on profits, reaching investor targets, or maximizing shareholder returns.

Those with fears that we will or have become too big, that we will become like the rest of the agencies, that we will lose what got us to this point, I hear you! It is my biggest fear as well, and it is my continued promise to all of you that we will not change what has gotten us to this point. Treating caregivers like gold, listening to our patients and families, putting customer service first, not growing for profits but growing to help as many people as possible, is what we will continue to do.

COMPANY NEWS

With that being said, our growth has had its perks too! We are now able to offer the best in industry benefits and compensation packages, we have ample shifts for our nurses, we have more nurses to call when there is a patient in need, more money to invest in recruiting and hiring the best caregivers, there are more resources to re-invest into our caregiver appreciation programs, career advancement, training programs, improving technology, and more.

We look to the future with excitement and commitment to you! Lets come together as a powerful community of patients, nurses, and professionals to help each other reach our goals. Lets use our collective knowledge and resources, to help a fellow nurse through a difficult time, to support our patients and families who experience a loss, or to help a family navigate the difficult world of Medicaid and insurance. We can accomplish so much more together than apart.

Just as a lighthouse provides hope for a ship searching for the shore, we shall provide hope for those searching for the right home health agency. I know it is corny but I'm going to roll with it! I never promised to be good at quotes."

COMPANY NEWS

We are expanding! By the end of this year we will be opening home health offices in Tampa, St. Pete, West Palm Beach, and Jacksonville. In 2024, we will be opening offices in Fort Lauderdale, Miami, Sarasota, and Tallahassee.

We want to give a special shoutout to one of our nurses, Charlene Rodriguez Rivas. She has a compassionate demeanor that creates an atmosphere of comfort and trust in our patients homes. She goes the extra mile to ensure her patients feel heard and cared for, taking time to sit by their bedside, holding their hands, and offering words of encouragement. The families she works with speak very highly of her. Thank you for showing the true essence of healthcare in all your work Charlene.

Our new website just launched! On it you can find job opportunities, contact information, services we offer, our locations and much more. Check it out at atlanticcareservices.com!
